

Occupational Therapist

Ross Rehabilitation is a well-established, OT owned and operated rehabilitation company. We have a very good reputation in our community, have been in business for over twenty years, and enjoy long-term collaborative relationships with our diverse referral base.

We currently have exciting full-time employment opportunities for Occupational Therapists in the Hamilton, Niagara, Waterloo, Halton, Peel and York regions, as well as the City of Toronto.

Our firm invests in the growth and development of our professionals through long-term mentoring programs, weekly team case reviews, and individual and firm-wide professional development initiatives. Occupational therapists on our team also enjoy offices in our large west-Hamilton clinic, and remote access to work from home when preferred. Our therapists are recognized for their professionalism, performance, and commitment through the security of a full-time employment position with competitive earnings.

Our clients present with complex and catastrophic injuries affecting cognitive, psycho-social and physical performance. Our evidence-based, client-centred treatment programs positively impact on the recovery of our clients' dignity, independence and function. Our occupational therapists have the opportunity to collaborate closely with our multidisciplinary team of physiotherapists, vocational evaluators, kinesiologists, and rehabilitation therapists.

Responsibilities:

- Home, accessibility and attendant care needs assessment
- Discharge planning for clients from acute care/rehabilitation institutes
- Occupational therapy treatment to address functional impairments associated with cognitive, psycho-social, and physical limitations
- Progressive Goal Attainment Programs
- Cognitive Rehabilitation Programs
- Vocational Services including job-site analyses, ergonomic assessments, and return-to-work programs
- Participation in multidisciplinary catastrophic assessments
- Supervision of staff rehabilitation support workers to facilitate functional treatment objectives
- Liaison with various community partners, health and social services to facilitate client goals and independence

Qualifications:

- University degree in Occupational Therapy
- Registration with the College of Occupational Therapists of Ontario
- Valid driver's license with access to a vehicle
- Excellent interpersonal skills with commitment to client-centred practice
- Strong analytical ability
- Excellent time management skills
- Advanced written and verbal communication skills
- Experience working under the Statutory Accident Benefits Schedule (SABS) will be considered an asset.
