# ABOUT THE SPEAKER

**SHRIKANT J. CHINCHALKAR**  
M.Th.O, B.Sc.OT, OT Reg. (On), OTR, CHT

**Shrikant J. Chinchalkar** worked as a hand therapist at the Roth-McFarlane Hand & Upper Limb Centre, St. Joseph's Health Centre in London, Ontario, Canada for 26 years. He has over 47 years of clinical experience in treating upper extremity conditions and over 36 years of teaching experience. He designed and developed Hand Therapy programs at four major teaching centers in Canada including Roth-McFarlane Hand & Upper Limb Centre in London, Ontario. In addition, he designed WSIB Specialty, Brachial Plexus and Peripheral Nerve Injury, Elbow, Wrist and Hand Rehabilitation, and Hand Therapy Fellowship programs at this center. He worked as a guest lecturer at University of Manitoba, University of Toronto and Western University in Canada. He conducted many instructional courses on upper extremity rehabilitation in over 25 countries in the world and has won many awards for his presentations. He has over 300 presentations to his credit. He was awarded the "Dr. Paul Brand Award of Excellence" by the American Society of Hand Therapists (ASHT), "Award of Leadership" by the Canadian Association of Occupational Therapists (CAOT), "Award of Excellence" by the Sisters of St. Joseph's Hospital, "Best Educator" by the Western University, "Most Outstanding Prestigious Alumni" by the Nagpur University in India, the "Lifetime Membership Award" by the Canadian Society of Hand Therapists and recently "Excellence in Teaching and Coaching" by the administration of the St. Joseph's Hospital in 2017. Recently the Hand Therapy fellowship program was named after him. It is now called as "Chinchalkar Hand Therapy Fellowship Program" at the Roth-McFarlane Hand & Upper Limb Center. Recently he was nominated for the **Education Committee Chair** and also **Lifetime Achievement Award** of the International Federation of Society of Hand Therapists (IFSHT). He authored five book chapters and has published 32 papers and 15 abstracts in numerous peer-reviewed journals related to Upper Extremity Surgery and Therapy.

ADVANCED CLINICAL  
EDUCATION

## WRIST AND CARPAL KINEMATICS

SEPTEMBER 27-28, 2019  
BRAMPTON, ON

This one and half day Intermediate level course is designed to enhance the understanding of wrist and carpal anatomy, biomechanics, instabilities, and fracture dislocations. The presentations during the course includes animation and video-clips of cadaver dissection, surgery, pathomechanics, and treatment to enhance the learning experience.

This comprehensive course provides an analytical approach to the rehabilitation of the wrist joint.

### Course Contents

- Anatomy of the Wrist and Carpus
- Kinematics of the Wrist and Forearm
- Evaluation of the Wrist- With Hands-On Lab
- Distal Radius Fractures
- Carpal Dislocations and Instabilities
- Carpal Fractures
- Common Surgical Procedures of the Wrist
- TFCC Injuries

### Course Objectives

Upon completion of course, therapist will:

- Learn the complexity of the wrist and carpal anatomy
- Understand normal & abnormal carpal kinematics
- Demonstrate an ability to sequentially assess the wrist
- Develop a treatment plan for various wrist conditions
